

## DEMOCRATIC TICKET

Election March 21, 1922

For Congress—Tenth District,  
H. ST. GEORGE TUCKER.

## TUCKER AT APPOMATTOX

Hon. H. St. George Tucker, Democratic nominee for Congress from this district was here Saturday and met a great many Democrats. He appeared before a crowd of about fifty who had gathered at the Clerk's office with the Democratic Com. and at frequent and urgent calls for a speech. Mr. Tucker addressed the gathering in a short speech, in which he pledged to the people of this district his whole heart and ability for the best service. The members of the Committee present assured the candidate that everything would be done to get out the vote on Tuesday March 21st. Mr. Tucker frequently spoke of the progress of Appomattox as he visited the business places and our splendid banking institutions. He shook hands with hundreds of people and told many stories about our old citizens whom he knew and counted as his friends twenty odd years ago. The Democracy of Appomattox will do its full duty next Tuesday Mr. Tucker, and you are invited to come again—after you are regularly seated in the National Congress.

Go to the polls Democrats and vote next Tuesday for your Congressman.

The legislature has adjourned and our representatives are back home. Satisfied to do with the work of the session.

## Tobacco Growers and Appomattox

T. C. Watkins, of South Boston, Va., was made director of warehouses for the Tobacco Growers' Cooperative Marketing Association of Virginia, North Carolina and South Carolina at the meeting of directors in Raleigh yesterday.

Mr. Watkins is vice president of the Boston National Bank, of South Boston, a large tobacco planter. He is considered well qualified to manage the warehouses of the association to be used by its 65,000 members in three states.

The need for efficient production, the importance of striving for quality rather than quantity and the raising of home supplies as a first necessity to secure profits for members of the Tobacco Growers' Cooperative Association was stressed in the meeting of directors. Satisfactory progress in their survey of three states was reported by the committee on warehouses who report good prospects of securing adequate warehousing and other mechanical facilities.

The campaign for new members opens in 80 counties of Virginia and the Carolina today and the leaders predict the increase of the present majority sign up to a 75 per cent membership in the marketing association in three states.

It is now up to Appomattox and Pamplin to get together and make necessary arrangements for handling the crop of these counties. Appomattox county has ample facilities, both in equipment and money. Now is the time to start the work of preparation for a satisfactory organization to take care of the situation for these two important markets. Every tobacco grower in this section would rejoice to know that he could use his crop at Appomattox and Pamplin. What say you Pamplin—are you ready? Why not do it now.

A. O. Wilson, director of the Tobacco Growers' Cooperative Association from the sixth Virginia district, has been appointed Secretary and Chief of Field Service for the Marketing Association in the three states of Virginia, North Carolina and South Carolina. An office is now at Raleigh, N. C.

## Buckingham

The board of supervisors met here on the 1st Monday and laid the levy for the coming year. Mr. C. H. Jones and Mr. M. L. Lane were not in attendance as they had been sick. The county school board appeared before the supervisors and asked that the levy for school purposes be made 75c on the \$1 of property. Mayeville and Marshall districts already had this levy and the

supervisors were asked to make it uniform in all the districts which they failed to do. The chairman of the board said, however, that the levy might yet be raised in the other districts if it was found that a great number of taxpayers favor the increase.

The teachers association met here also on the same day and they were interested listeners to what was said about the raise in school levy and one of the lady teachers addressed the board of supervisors on the subject. Buckingham like many other counties in the state is in debt and unless the legislature and the supervisors provide some way to increase funds and the trustees reduce the number of schools and reduce the salaries the debts are likely to remain unpaid. The teachers and other ladies interested in education provided a most sumptuous repast at the high school building and invited the school trustees to partake of it which they did with much enjoyment.

Mr. C. B. Denton was taken quite ill as he came here last week and Dr. Morris took him to Richmond to a hospital for the trouble is said to be hernia.

Should the people of Virginia decide to call a constitutional convention, one very prominent citizen living in the northern part of the county has already said he would like to be sent as a delegate from this county. It is wonderful how few farmers took advantage of the dr. spells before and after Christmas to sow their plant seeds, a few did do this, but a great majority of planters have not sowed any plant land, although numbers of them had burned and gotten the land in order. The mud has been so deep that it has been difficult to get anywhere to get plant patch guano.

There was a good crop of corn made on James River low grounds last year and farmers there are selling corn as low as \$5.50 a barrel. I saw a man showing the effects of something he had been drinking and now that grain is cheap and improvised stills are being used the effects will have their names full if they execute all law breakers.

Mr. Over's "buyers" clause if it had been adopted would have had little effect here, except to cause men to be by saying they hadn't bought whiskey when they had bought it. The whiskey question is a much vexed one, but I think more men want the use of a month law restored than any other we have.

A fruit tree salesman asked a customer how much land he had and he told him, none, that he had some government land in his possession that he had by paying enough taxes to be like rent just so with the increasing taxes. Federal, State County and district, a man will have to hustle to make enough to pay his taxes and we read of farmers in some of the western states abandoning their lands rather than pay the enormous taxes.

From this place the old Sprague farm the plot is cut up so as to be almost impossible the wagon wheels have run through the sand and clay toping and the old red mud is getting mixed with the soil that was put on top.

The one cent tax on gasol in should be used as a maintenance fund. Most people here are opposed to the ten million bond issue for roads and both of our representatives would agree with it. It is said that our major company has decided to build for amounts aggregating one-half million dollars or more which amounts are due for automobiles. I will make the last payment on a passenger Ford for the use of it a reasonable time.

Before this is read Circuit Court is to be held in session here as it should open March 14th.

The examinations of prospective teachers in the public schools will be held the last part of April the exact date will be announced in this correspondence later.

The vacancy on the Mayeville district school board has not been filled as yet. Mr. James L. Baird is acting as chairman of the board in place of Mr. J. G. Glover. I hear the name of a prominent lady mentioned in connection with the appointment to fill the vacancy.

One of my neighbors has a flock of sheep for sale and I wish he could make a sale. There was a meeting of the

Dark Tobacco Association and also of the Farmers Union held here Saturday.

Properly to Fit the Crime.

When Herbert and Fenton came strolling in a half hour after dinner was over, their father decreed they should each have a sandwich, and a glass of water and be sent straight to bed, a just punishment for bad boys.

A week later papa came home long after dinner was over. As their mother was busily preparing a second dinner she heard Herbert mutter to his brother: "The ought to have a sandwich and a glass of water and go straight to bed."

Do Not Reach for the Moon.

Psychological science apparently has exploded the good old notion that "bables will reach for the moon." Dr. John R. Watson states in the Scientific Monthly that when actually put to the test they will watch attentively anything they see moving, no matter what its distance, but that they will not reach for it until it is within 20 inches of them.

What a Puzzled Pat.

Two Irish passengers were gazing over the after rail of the steamer, "The Pat," said Pat, "I can't understand how the captain finds his way across the ocean at all, at all. If we was going the other way, now, all hell here to go would be to follow that white streak behind there, but in front there's a devil a mark of any kind."

The Silent "H."

The letter "H" is not pronounced at the beginning of the word hour, let's hear, humor, honest, honor, and their derivatives. Many people are unaware of the fact that the word hour does not have its "H" sounded, "H" is silent also when it comes after the letter "B" as in rheumatism.

## "I Have Lost The Receipt"

Thus spoke the man who was asked to settle a bill that he claimed to have paid a month previously. He had placed the receipt in his pocket with other papers and now could not find it.

He had paid cash, so could do nothing except pay the bill a second time.

That man learned a lesson from this incident—he now pays all his bills by check. In case of dispute about a paid bill, he can now use his cancelled checks as proof of payment.

Do you pay by check? It is the safe and businesslike way.
